NOWRUZ
The Iranian New Year

The blossom of almond, Niasar, Kashan, IR-Iran

Photo by: Prof. E.Fakhrarian

NOWRUZ as the beginning of the new Iranian year is the first day of spring and is celebrated on the day of the astronomical vernal equinox, usually occurs on 21st March. According to the United Nation Organisation it is celebrated by more than 300 million people all around the world and has been celebrated for over 3000 years in Iran (Islamic Republic of), littoral Persian Gulf and Caspian Sea countries, India, Kazakhstan, Kyrgyzstan, Tajikistan, Turkey, Afghanistan, Azerbaijan, Albania, Macedonia, China and other regions.

United Nations Educational, Scientific and Cultural Organization (UNESCO) has introduced 21st of March as the International Day of Nowruz.

Nowruz plays a significant role in strengthening the ties among peoples based on mutual respect and the ideals of peace and good neighbourliness. Its traditions and rituals reflect the cultural and ancient customs of the civilizations of the East and West, which influenced those civilizations through the interchange of human values. Celebrating Nowruz means the affirmation of life in harmony with nature, awareness of the inseparable link between constructive labour and natural cycles of renewal and a solicitous and respectful attitude towards natural sources of life.
